Kentucky Drug Overdose Deaths in 2020

April 29, 2021
Goals

• Prepare for drug overdose prevention during future extended emergency situations

• Inform the development and direction of programs operating in the wake of the Covid-19 pandemic

• Connect community leaders in drug overdose prevention with data that can help guide practice
Objectives

• Recognize how the unique circumstances of 2020 influenced Kentucky’s drug overdose deaths

• Understand the drug types and demographics involved in drug overdose deaths in 2020

• Know what types of data are available through KIPRC and how to request that data

Yearly Counts of Drug Overdose Deaths Involving Fentanyl and Methamphetamine with the Presence of at Least One Additional Drug, 2016–2020

Data source: Kentucky Death Certificate Database, Kentucky Office of Vital Statistics, Cabinet for Health and Family Services. Data are provisional and subject to change. Produced by the Kentucky Injury Prevention and Research Center as bona fide agent for the Kentucky Department for Public Health, April 2021.
AGE AND DRUG OVERDOSE DEATHS IN KENTUCKY
Figure 7

Yearly Proportion of All Drug Overdose Deaths Among Kentucky Residents by Age Group, 2016-2020

Data source: Kentucky Death Certificate Database, Kentucky Office of Vital Statistics, Cabinet for Health and Family Services. Data are provisional and subject to change. Produced by the Kentucky Injury Prevention and Research Center as bona fide agent for the Kentucky Department for Public Health, April 2021.
Figure 8

Monthly Proportion of All Drug Overdose Deaths Among Kentucky Residents by Age Group, 2019-2020

Data source: Kentucky Death Certificate Database, Kentucky Office of Vital Statistics, Cabinet for Health and Family Services. Data are provisional and subject to change. Produced by the Kentucky Injury Prevention and Research Center as bona fide agent for the Kentucky Department for Public Health, April 2021.
Summary

• Drug overdose trends in 2020 diverged significantly from those in previous years.
  – The greatest spike in deaths occurred in May 2020.

• Increase in deaths driven by involvement of fentanyl followed by methamphetamine and by the combination of both drugs.

• Some increase in deaths among the youngest and the oldest; most deaths still occur among middle-aged individuals.
Creating Custom Reports

• How to request custom reports from KIPRC:
  – Email kiprc.data.request@L.uky.edu
  – Include
    • Your name & organization
    • Indicator of interest (e.g., nonfatal drug overdose, births involving NAS)
    • Time period (e.g., quarterly counts for 2020)
    • Region/Counties
## Definitions

<table>
<thead>
<tr>
<th>Indicator</th>
<th>ICD-10 Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>Nonfatal Drug Overdose</td>
<td>T36–T50, initial encounters</td>
</tr>
</tbody>
</table>

### Drug Type

<table>
<thead>
<tr>
<th>Drug Type</th>
<th>A drug overdose death including a supplemental cause of death code of T40.4 and a textual mention of fentanyl</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fentanyl</td>
<td>A drug overdose death including a supplemental cause of death code of T40.4 and a textual mention of fentanyl</td>
</tr>
<tr>
<td>Methamphetamine</td>
<td>A drug overdose death including a supplemental cause of death code of T43.6 and a textual mention of methamphetamine</td>
</tr>
<tr>
<td>Benzodiazepines</td>
<td>A drug overdose death including a supplemental cause of death code of T42.4</td>
</tr>
<tr>
<td>Heroin</td>
<td>A drug overdose death including a supplemental cause of death code of T40.1</td>
</tr>
<tr>
<td>Cocaine</td>
<td>A drug overdose death including a supplemental cause of death code of T40.5</td>
</tr>
<tr>
<td>Hydrocodone</td>
<td>A drug overdose death including a supplemental cause of death code of T40.2 or T40.6 and a textual mention of hydrocodone</td>
</tr>
<tr>
<td>Oxycodone</td>
<td>A drug overdose death including a supplemental cause of death code of T40.2 or T40.6 and a textual mention of oxycodone</td>
</tr>
<tr>
<td>Gabapentin</td>
<td>A drug overdose death including a supplemental cause of death code of T42.6 and a textual mention of gabapentin</td>
</tr>
<tr>
<td>Fentanyl Analogs</td>
<td>A drug overdose death including a supplemental cause of death code of T40.4 and a textual mention of a fentanyl analog*</td>
</tr>
<tr>
<td>THC</td>
<td>A drug overdose death including a supplemental cause of death code of T40.7 and a textual mention of THC</td>
</tr>
</tbody>
</table>
Acknowledgments

Thank you, KIPRC drug overdose surveillance and prevention teams.

Thank you, colleagues at Kentucky Department for Public Health.
