

ASSESSING THE LANDSCAPE OF RECOVERY HOUSING IN KENTUCKY

*Findings from an exploratory project funded by the Kentucky Opioid Response Effort

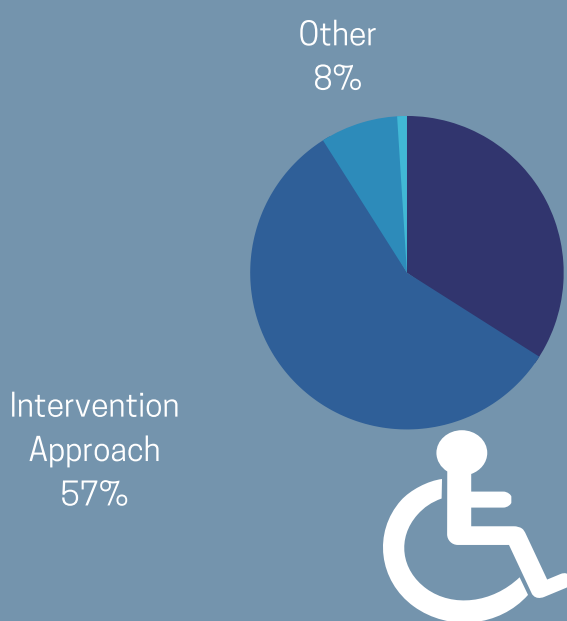

92 out of the 120 counties (76.6%) in Kentucky appear to have NO recovery housing options.

Currently there are 173 identified active recovery houses in Kentucky (excluding 76 Oxford Houses).

\$400

Median resident rent cost per month.

INTERRUPTION OF RECOVERY POLICIES

62%

of recovery houses offer a mix of nonclinical and clinical services with some paid staff.

61%

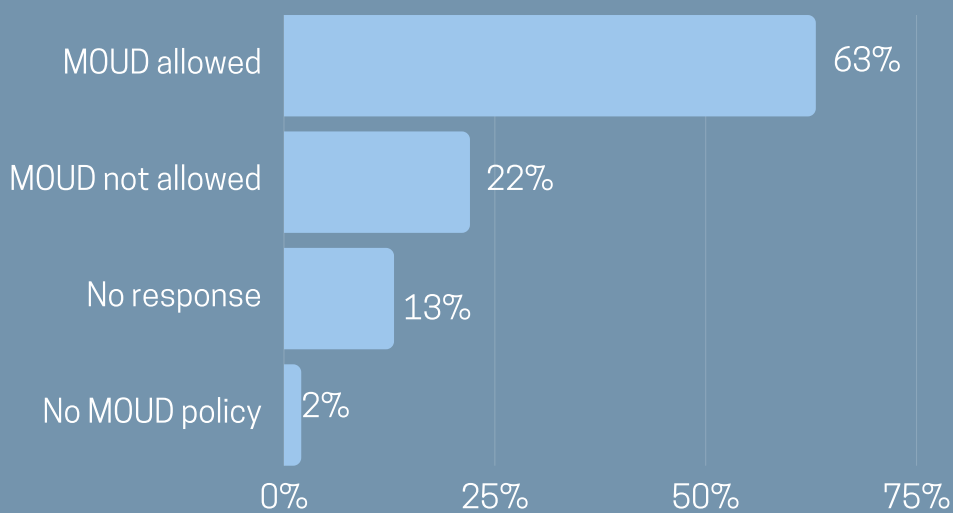

of recovery houses are NOT handicap accessible.

49%

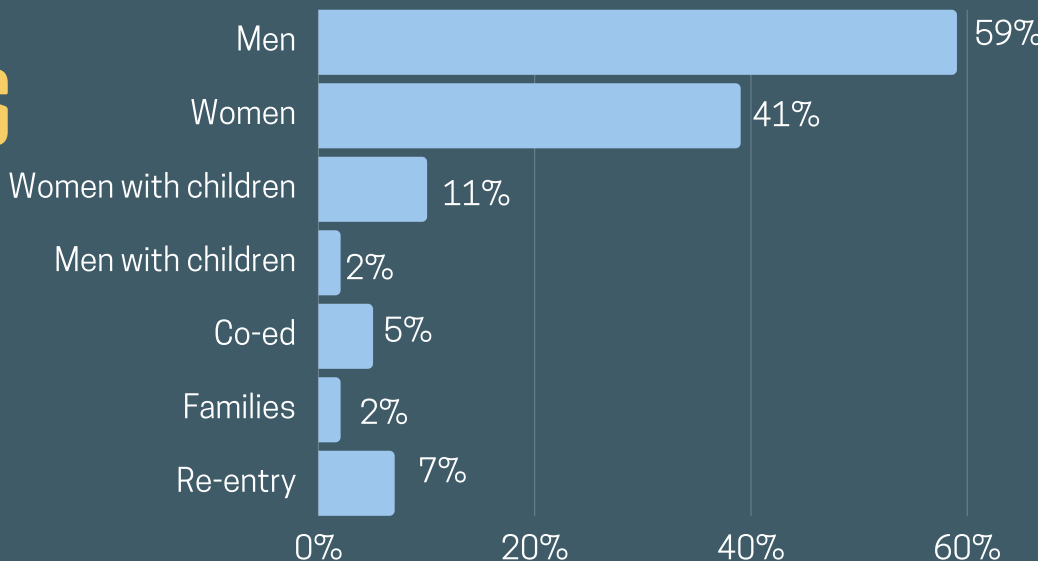

of recovery houses provide cleaning items, toiletries, and grocery items.

MEDICATION FOR OPIOID USE DISORDER (MOUD) POLICIES

POPULATIONS HOUSED BY RECOVERY HOUSES

*Note: median resident rent cost per month, interruption of recovery policies, services offered by recovery houses, MOUD policies, and populations housed by recovery houses responses represent the 86 recovery houses who completed the recovery housing survey.
Produced by the Kentucky Injury Prevention and Research Center, December 2020. This project is supported by the Kentucky Opioid Response Effort (KORE) through a Substance Abuse and Mental Health Services Administration (SAMHSA) Grant 1H79TI081704.
